

Sulyman Khalil

Lahore, Pakistan | +92 370 7843216 | sulymankhalil.dev@gmail.com | in/sulymankhalil

Professional Summary

Turning complex problems into clean, fast, and scalable full stack solutions. Full Stack Developer with 1+ year of experience building web and mobile applications using React, Next.js, Node.js, Express.js, Nest.js, React Native, and TypeScript. Experienced in AI-assisted development workflows using tmux, Herder, Cursor, Claude, Prompt Engineering, Loop Engineering and Context Engineering with hands-on experience building responsive user interfaces, developing REST APIs and integrating frontend, backend and mobile applications. Also building proficiency in WebRTC and FFmpeg for real-time video streaming.

Technical Skills

- Languages: JavaScript (ES6+) & TypeScript
- Frontend: React.js, Next.js, Vue.js, Angular, Umi.js, Tailwind CSS, Bootstrap, Material UI & Ant Design
- Backend: Node.js, Express.js & Nest.js
- Mobile Development: React Native
- State Management: Redux Toolkit
- Video Streaming: WebRTC & FFmpeg
- AI-Assisted Development: tmux, Herdr, Prompt Engineering, Context Engineering and Loop Engineering using Claude and Cursor

Professional Experience

MultiConnect Horizon Ltd. | Hong Kong • Remote

● Software Engineer (Full Time) | June 2025 – Present

- Leveraged AI-assisted development workflows to accelerate feature delivery, debugging, and code quality across web and mobile applications.
- Built scalable frontend interfaces with React and Next.js, focusing on reusable, high-performance user experiences.
- Developed RESTful APIs and backend services using Node.js and Express.js with seamless frontend integration.
- Built cross-platform mobile applications using React Native with REST API integration and efficient state management.
- Contributed to production-ready full stack and mobile applications by delivering scalable, maintainable, and user-centric solutions.

● Software Engineer (Intern) | April 2025 – May 2025

- Gained hands-on experience developing web and mobile applications using React, Next.js, React Native, Node.js, Express.js, and REST APIs.
- Gained practical experience using AI-assisted development workflows to support coding, debugging, and feature implementation.
- Collaborated with senior developers to learn modern full stack and mobile development practices while contributing to real-world applications.

Key Projects

- AILH: Web platform for the Hong Kong University of Science and Technology connecting researchers, faculty and initiatives.
- Click n Wash App: On-demand car wash booking platform offering seamless scheduling, payments and service management for customers.
- Task Flow: React task management app with RBAC, i18n, priority scheduling, auto-overdue detection and smart task pipeline, built with Umi.js, Ant Design and Day.js.

Education

BS in Software Engineering

Note: Strong foundation in full stack and mobile development with AI-assisted development experience and growing expertise in system design, scalable architecture and real-time video streaming.
